## EDUCATION

### B.Tech in Electronics and Communication Engineering

Bankura Unnayani Institute Of Engineering

06/2018 - 06/2022

Graduated with 8.44 CGPA

### 12th Boards

#### Khatra High School

05/2014 - 05/2017

60.1% in WBCHSE

## PERSONAL PROJECTS

### Movie Ticket Booking Website (05/2022 - 05/2022)

- <https://github.com/rudranilbanerjee/Front-page-of-website.html>
- In this project i am implement good user interface and user interacting website where user book of his movie ticket for a particular city on a particular date and time for a particular show.
- In this Project i am using **HTML** , **CSS** , **Javascript** and **Jquery** as a FrontEnd and **PHP** and **Javascript** as a Backend and **MYSQL** as a Database.
- In this Project i am learn and discover so many thing like making the Dynamically pages for different different uses, making the registration and Password based login page in proper guidance, recommended something to the user in search bar, making the seat booking system and upload the data in database from frontend and show the current data from the database to the user.

### Bank Locker Using Embedded System (03/2022 - 03/2022)

- In this project i am implement a high security based Locker which is accessed by only authorized user so that un authorized person can not open the locker.
- In this project i am using 8051 microcontroller and driver code for it written in C-language.
- A motor is connected with the locker and a keypad is connected with the microcontroller unit. To open the locker, the user has to give proper security code using the keypad and then microcontroller analyses the code and alerts the user with a green signal to open the door. If he is not an authorized user, the microcontroller sends signal to the controlling unit and buzzer the alarm system.

## SKILLS

JAVA

Data Structure & Algorithm

HTML

CSS

JAVASCRIPT

JQuery

PHP

MYSQL

OOPS

Git

C-Language

## ACHIEVEMENTS

Solved 43 problems on GFG in last 1 month with the score of 125 (09/2022 - 10/2022)

<https://auth.geeksforgeeks.org/user/rudranilbax0w0/practice>

solved 49 problem on Leetcode in last 3 months (08/2022 - 10/2022)

<https://leetcode.com/rudranil123/>

Winner as a 3rd position in our college Techfest for the project of smart dustbin using Arduino (02/2019 - 03/2019)

## CERTIFICATES

Machine Learning from Internshala Training (01/2022 - 03/2022)

## LANGUAGES

English

Professional Working Proficiency

Hindi

Full Professional Proficiency

Bengali

Native or Bilingual Proficiency

## INTERESTS

Singing

Danceing

Drawing

Teaching

Traveling
